

INSPIRED SUMMER 2025

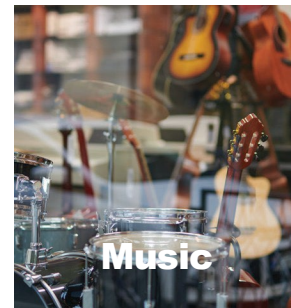

JULY 7 THRU JULY 31

A customized summer program for students in 8th-12th grades that combines academic skill building with social-emotional wellness experiences.

Summer is a great time to work on writing, math, and executive function skills. We offer skills-based and for-credit classes across the curriculum through group and individual instruction.

InSPIREd Summer continues the Spire School's health and wellness tradition with fun, interactive team building and self-help experiences that emphasize healthy coping skills, stress management, the mind-body connection, building self-esteem, and social connectedness.
